

# EARS & EYEBALLS

THIS WEEK'S STREAMLIST

## SIT & EAT

**BRITTANY RUNS A MARATHON**- A film about a 20something who decides to change her life and lose weight - sassy, intelligent and funny. A Bridget Jones like film where it's all about Brittany and loving herself rather than all about men. Refreshing! [AMAZON PRIME](#)  
**PERMISSION** - The Captain of the Iranian Football team is banned from travelling by her husband. She didn't get his permission. Iranian film that will leave you thinking WTF! [Released 22.11](#)

## DATE NIGHT

**PRIVATE LIFE**- This is a gem - a couple in their 40s are on that brutal IVF jourey. Insightful, funny and honest. Paul Giamatti (Billions) and Kathryn Hahn are pitch perfect as the couple. [NETFLIX](#)  
**A "family"** where no one is who they claim to be. It starts with a petty thief saving a child and risking the families life of crime. See a different side of Japanese society. [SKY MOVIES](#)

## IRON TO THIS

**THE SPIRAL** - An intelligent French police drama - who is on the take and who is honest. Reminds me of the Wire - yeah it's good. [NETFLIX](#) or [BBC IPLAYER](#)  
**MILLION DOLLAR WEDDING PLANNER** - When money is no option you can have the wedding of your dreams. If you've watched the film: Crazy Rich Asians, then welcome to the reality. Love the couple who said "we have no budget"!!

## WINE & CUT THE CHAT/HOW HAVE I NOT SEEN THIS?

**DOGMAN** - This film is based on a real life crime that took place in Italy. A gentle dog groomer is terrorised by the local town bully. It is surprising and striking - the opening and closing scenes burn into your psyche. From the same writer as Gomorrah. This is gritty, with dark humour and an interesting look at human pack mentality. [SKY MOVIES](#)

**BOY ERASED**- There are still gay conversion camps in the US that believe you can pray the gay away. Joel Edgerton stars in and directs an all star cast of Nicole Kidman and Russell Crow of parents living in the American South wanting to "help" their son. Moving. [SKY MOVIES](#)

## DUVET DAYS

- **YOU** - This isn't based on real life but I know plenty of people who post their entire life on social media. Binge worthy and a little silly towards the end but enjoyable. A guy finds out everything about the girl he's stalking all from her Facebook and Instagram... [NETFLIX](#)
- **THE CROWN**- The saga of the British Royal Families trials and tribulations continue from 1960s-80s. Will Olivia Colman and Tobias Menzies be any good as Liz and Phil? [NETFLIX](#)
