AFTER WORK/ ON THE SOFA!

HACKS

This is brilliant, apart from the pilot, skip the pilot episode. Jean Smart as the 60 something stand up comedian with a young upstart comic writer. It's not about the jokes, it is the inter generational observations that are so spot on. Also short episodes is an added bonus!

AMAZON PRIME (UK)// HBO MAX (USA)

WINE & CUT THE CHAT/HOW HAVE I NOT SEEN THIS?

THE STAIRCASE - Some people really are unlucky, or are they. Michael Peterson was charged with the murder of his wife who died, guess where. Except she's not the first woman to die like that. This is the 13 episode true crime documentary series, watch it now because Colin Firth and Toni Collette star in the drama of this coming to NOW TV/SKY on 5 May. Frankly, I don't know if he did it or not. **NETFLIX**

MEETING GORBACHEV - Where have all the good statesmen gone? Once Herzog stops fanboying over the man, this is an interesting look at 70s, 80s and 90s politics Russia was a very different place under Gorby! **NOW TV/SKY DOCUMENTARIES**

DATE NIGHT

NO TIME TO DIE

It's 60 years since Mr Shaken not stirred graced our screens. It's too long (at least you can pause & pee), too soft, too much. My favourite will always be SKYFALL from THE Craig era, TOMORROW NEW DIES from the Brosnan era, that opening stunt, but my no.1 Bond is Sean Connery. There are a mix of Bond films available, **AMAZON PRIME**

IRON & WATCH

SELLING SUNSET

It's back this Friday 22 April We're on season 5 already!! This is good background noise, I can't remember all their crazy stuff although one of them is now dating the boss. **NETFLIX**

TRUST NO ONE - THE HUNT FOR THE CRYPTO KING is a good reminder to write down ALL OF YOUR PASSWORDS!! It's a true crime docuseries that Netflix does well. **NETFLIX**

Watch CALL MY AGENT on Netflix now before the UK remake TEN PERCENT coming to Amazon Prime 29 April ruins all your happy memories!

JUST OK!

No brain function needed.

ANATOMY OF A SCANDAL - The real scandal is the twist. I haven't read the book but the script by the writers of Big Little Lies felt like they dialled it in. High Production values, good direction and setting. [NETFLIX](#)

CHARLIE'S ANGELS - I'm not a fan of the remake/reboot but this is such fun and I actually like all three angels. [CHANNEL 4/ AMAZON PRIME](#)

MOLLY'S GAME - This is an interesting biopic film with Idris Elba and Jessica Chastain about a woman so driven she runs illegal gambling tables until the FBI catch up with her. It's a bit wordy, but it is written by Sorkin who wrote The West Wing. Entertaining though. [BBC IPLAYER/ NETFLIX/ AMAZON PRIME](#)

JUST WANT TO WATCH SOMETHING GOOD!

Story, script, direction, acting, documentary, tv, film - everything is A+!

JOKER - Joaquin Phoenix's turn as the joker and it's less action and more about the origins of the character. Interesting but it does lack balance, I needed more story. [NETFLIX & SKY CINEMA](#)

MISS WORLD 1970: BEAUTY QUEENS & BEDLAM - An interesting doc film looking back at the 1970 contest when a black woman won and a feminist liberation movement was born! [BBC IPLAYER](#)

LION KING- You know the story and if you don't this is animated, Elton John songs eg. Circle of Life etc. [BBC IPLAYER](#)

THE PEANUT BUTTER FALCON - representation matters and this is a gem of a film. Watch it, joyful and rated 13. [BBC IPLAYER](#)

DUVET DAY

Flop and watch!

MY BEST FRIEND'S WEDDING

25 years since the gay best friend character became a standard feature in the rom com genre. This is a great film and has aged so well: Rupert Everett, Julia Roberts, Cameron Diaz and Dermot Mulroney! [AMAZON PRIME \(UK\)// NETFLIX \(USA\)](#)

WHITE HOT: THE RISE & FALL OF ABERCROMBIE & FITCH -

Remember when you happily spent £90 on a pair of jeans because two half naked men greeted you at the entrance of the store? No, well some people did and now Netflix comes with a white hot docuseries all about the racism and other poor practices that lead to the downfall of this brand. [NETFLIX](#)
